

Everyone has some form of insurance. You protect your car, your home, and your life. **WHY NOT PROTECT YOUR VACATION?** Bexley Travel strongly suggests that clients purchase travel insurance.

All travel suppliers have cancellation penalties which you would incur if you had to cancel your reservations. Penalties can range anywhere from \$100.00 per person up to 100% of your trip cost. In addition, some health insurances do not cover you if you are traveling outside the United States. Therefore, we suggest an insurance that has emergency medical expense coverage as well as cancellation coverage.

If you have any questions about the penalties on your vacation, please call our office. Our agents will be glad to discuss your specific trip. They will also be able to discuss the different travel insurance policies that are available, and help you make a decision about which best suits your needs. Call, 614.235.8813
